To Whom It May Concern:

I would highly recommend Dr. Burrs for her healing touch therapy. In 2003 I was involved in a horrible accident where I sustained a fractured vertebrae in my C-spine and a collapsed disc. I had surgery to replace the disc and have had residual pain in my neck shoulders and upper back since my surgery. Upon treatment with Dr. Burrs she was able to open my chakras and get my energy flowing to promote relief of my neck and shoulder pain. This has improved my sleep and my ability to do activities of daily living again!

Thank you Dr. Burrs! I will be back for more treatments in the future!!

I am writing to recommend Dr. Linda Burrs for the Healing Touch Program

I have known Dr. Burrs for 2 years as a teacher, coach, and healing therapist. From my experience, Dr. Burrs is such a kind person who takes her time to listen and not judge. Dr. Burrs is a great teacher who breaks down problems or situations that you may not understand but helps you to process to where you fully understand. I can go on about Dr. Burrs and all the wonderful things she does for people. Coming to her for the Energy Healing has been a great experience. It has helped me to put my bias aside on energy healing. Being a Christian I did not fully understand this work and really thought of it as being witch-craft. I was proved wrong and I opened my mind to give it a try. Glad I did!!

One example of Dr. Burrs working with me was during the start of COVID-19. This is when businesses were closed. I thought to myself, how in the heck will I continue with services? Well let me tell you, we did an energy healing session over the phone! Honestly, I believed it wouldn't work but it did and the experience was amazing!

Based on our experience together, I can confidently recommend Dr. Linda Burrs for Healing Touch Energy Therapy.

Sincerely,

C. Chance

To Whom It May Concern,

I am writing to recommend Dr. Linda Burrs for Healing Touch.

I have known Dr. Linda Burrs for about 7 to 8 years and have nothing but positive things to say. I have been going to Dr. Burrs for her healing touch work. My healing was emotional and mental. You see, I was letting other people, unworthy people, clutter my mind with the feeling I really needed them to be my friend. My experience with Dr. Burrs were mind clearing, exchange and sharing; she let me know how important it is for self-care. Her communication and knowledge of healing touch is just awesome. She makes you feel so relaxed as she explains what she is doing. This experience has really been a God sent. My mind is really clear and I have learned to love me fully. I have forgiven myself for not liking myself. I am feeling good like I should. There is no doubt in my mind that Dr. Linda Burrs will be an excellent addition to whatever her next phrase is with healing touch.

Regards,

L. North-Knecht

To Whom It May Concern,

I went into this thinking that it probably would not do anything, but it was worth a shot. I was in pretty significant pain that no physician seemed to be able to help. It took one session, and the pain was completely gone. Gone. Completely. And it has not returned. I since have had several other sessions to assist with an upcoming surgery. That surgery took place, and I never felt an ounce of pain from the surgery. I didn't take a single pain medication, and this was a pretty extensive surgery that required me to stay in the hospital. I was very skeptical at first, and it still seems a bit like like Voodoo, but I swear by it. It has become my go-to for any pain/ discomfort that I may be feeling. To top it off, you get one of the best healing touch therapists around. Dr. Burrs takes it seriously, she works hard to make sure that you are comfortable, and she explains everything as she goes.

Sincerely,

Ashley K., Ph.D

I have chronic pain from degenerative disc disease which makes it difficult to walk and stand as well as pain in my knees.

After several conversations with Linda about Healing Touch, I went for my first session. I was having severe pain in my knee. During the treatment I felt relaxed but didn't feel anything happening. I was amazed that when I got up and put weight on that knee the pain was gone. There was minor soreness, but I could walk normally. My pain level continued to decrease days after the treatment and overall continued to improve daily.

I have been seeing Linda on a monthly basis. She has done more for me in those few sessions than years of chiropractic care and therapy.

Healing Touch really works, and I will continue to see Linda. She is very caring and truly wants to help people.

I highly recommend Linda Burrs and Healing Touch!

To whom it may concern

I was suffering from a pinched nerve in my neck (C6), shoulder pain, knee pain and some thumb/finger issues. I began receiving treatments from Linda in January 2020 to relieve some of the pain. I am happy to say after six sessions I am currently pain free!

Linda was professional, kind and very knowledgeable about the process of Healing Touch. She explained the Energy Centers and which color is responsible for each area. Linda sent me home after the first session with homework! This is serious business.

I would definitely recommend Linda Burrs, Healing Touch Practitioner for your healing needs.

Testimonials

As a practitioner, Linda Burrs' Healing Touch Energy Medicine helped to provide relaxation and stress relief to my body which had become depleted and manifested itself in undiagnosed illness. Through several distance healing sessions, Linda was able to offer energetic support in providing much needed energy to my body, mind and spirit.

The therapy sessions were done while my body was at rest. Linda safely offered the distance therapy and followed up to convey what she felt vibrationally. She was able to assist me in releasing the obstructed flow of energy which had negatively affected my physical and emotional health.

I am grateful for these energy healing techniques which have helped me become more consciously aware of the thought patterns and beliefs which I was manifesting which may have contributed to my ill health.

Thank you, Linda, for your work and dedication to this practice.

W. Martin
